

ESG AI - Automate Due Diligence, Risk Assessment, Monitoring and Reporting

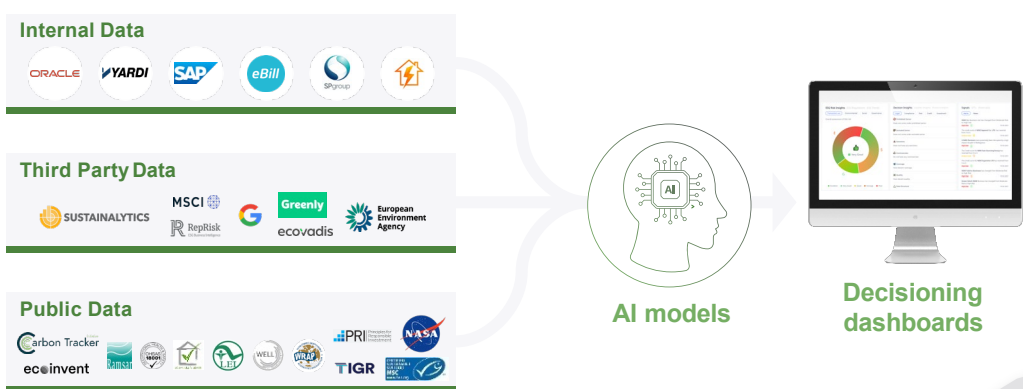

ESG decisioning

GreenFi AI platform makes your life easier to make sustainable business decisions while improving the impact of your investments and operations.

Automated data aggregation and AI enabled matching

Consistent data collection, enrichment, aggregation and integration of all data sources unified in one place, matched with ESG risk indicators and frameworks through our AI algorithms.

Data quality control & transparency

- Library of customizable controls for integrated data set quality assurance
- Tracking of coverage ratios and implementation of customized proxies
- Customer-controlled data overrides with audit trail of changes

Customized indicator measurements

- Pre-set risk metrics with customizable measurement rules
- Customized metrics and scores based on granular data

	Climate Data		Verified
	Biodiversity Data		Alert
	Anti Corruption Data		Verified
	Human Rights Data		Verified

Advanced ESG analytics

Sector & Country Analytics

Portfolio	Simulation
275,8/tCO2 GHG Emissions	240,0/tCO2 GHG Emissions

Climate, Biodiversity, Nature	2
Renewable energy, Carbon emissions	1
Human rights, Governance	5

Monitoring and Analysis

- Monitor of ESG metrics at company, portfolio and issuer levels
- Monitoring of sustainability metrics over time
- ESG compliance verification (labelled funds, SFDR, certs etc.)

Simulation

- Add/remove securities from portfolio or change the weights of securities
- Real-time remeasurement of portfolio metrics to evaluate impact of new allocation
- ESG metrics comparison of simulated portfolio with initial portfolio

Alerts and Recommendations

- Monitoring and implementation of alerts for controversy indicators
- Categorization of risks according to your investment thesis
- Qualitative analysis of impact by your teams
- ESG monitoring by issuer

Impact analysis, reporting & monitoring

Regulatory, customer and marketing reporting:

- Consolidate & automate reporting via a single space
- Sustainability performance monitoring
- Financed ESG impact analysis

Advisory hub

We help with ESG advisory and consulting, regulatory and labeller requirements with the help of our experts' insights

- Knowledge base: access to industry specific ESG risk libraries & AI enabled recommendations
- Our ESG experts are available on demand
